WOW!

Can You Believe We're Turning Five this Month?

It feels like only yesterday when Joint Effort first opened the doors. Now five years later we are here and going stronger than ever. We have experienced so much through the years. Many patients have walked through our doors and each one is so special to all of us. Not only have we grown but our patients have grown too.

Much has gone on through the five years. We opened our South office a year ago and that location is blossoming. Our North office expanded three times within the last five years. We have many new staff members as well as many of your old favorites.

We would love for each and every one of you to stop by or give us a call just to tell us how you are doing and to help us celebrate our anniversary.

Thanks to each one of you personally on being part of the Joint Effort family and for continuing to grow with us.

To celebrate our five years we are holding a contest. Just contact us with names of people that you referred and that we treated at Joint Effort. Your name will then go into a monthly drawing. We will contact the winner via telephone regarding the prizes and publish the winners in our monthly newsletter. Just remember everyone is a winner at Joint Effort.

The highest complaint our patients can give is the referral of there family and friends. Thank you for your trust.
